## Rise of the Sigma Divide

The 'Grand Order' is the government of the universe and is as old as time itself. It is comprised of two types of living beings, those with the presence of 'Prominence' and those without.

The 'Grand Order' is governed by a book called the 'Book of Prominence'. The book consists of sets of rules that guide and govern the universe. For a millenia the book served all beings well both mortal and immortal, until the rise of the 'Sigma Divide'.

The 'Sigma Divide' is a group of beings with and without 'Prominence', but choose not to follow the set of rules placed by the 'Order' because they believe them to be irrelevant. Now their sole mission is to overthrow the 'Grand Order'.

Desperate time times called for desperate measures, thus the 'Great Council' chose to create 'Sentry's' as legions to protect every part of the universe from the evil 'Sigma Divide' who ravaged worlds and forced people to join their cause.

This is the story an ordinary human from earth, who was about to be part of the universes greatest war.
